Consumables  
Control-it

Sealing patch  
after sampling  
dry products

A Labocontrole® Product

# Control-it

## Sampling control seals

More than 20 years of  
experience and expertise !

Control-it sampling control  
seals are based on a highly  
adhesive backing and meet  
several needs after sam-  
pling dry products

## APPLICATIONS

The **Control-it** sampling control seals are suitable for:

- Sealing after sampling operations, in efficient and clean way, sacks, paper bags or plastic bags, big-bags.... In any case even if substrate has not been primed
- Preventing the product from any environmental contamination
- Providing inviolability of the packaging
- Identifying miscellaneous informations for quality control

## PRODUCTS

**Standard Control-it:** all our standard seals meet EC Food Contact Regulation 1935/2004 requirements enabling direct contact with dried pharmaceuticals or foodstuffs.

In 1000 units Rolls presentation, round shape  $\varnothing$  95mm(3.74Inch) or square shape 80X80mm (x3.15Inch), **Standard Control-it** are made of extremely adhesive supports. The adhesive ingredient complies with FDA and BfR rules.

**Custom design Control-it sampling seals:**

each sampling case while product processing, packaging, storage control....etc... is a plant affair, and so, our technical support is at your disposal to study any requirement regarding:

- ▶ Design (logo, text, colours)
- ▶ Label construction (re-printable, double coating, removable)
- ▶ Size and shape
- ▶ Presentation (rolls, sheets, continuous rolls, folding sheets...etc...)

## QUALITY INSURANCE—CERTIFICATION

All standard **Control-it** sampling seals and the custom design **Control-it** made with selected food contact backings are delivered with conformity declaration for food contact.
